# Storage

Container for Coffee Pads

COFFEE/TEA CAN

## Coffee Pad Tin for Storing 20 Senseo Pads etc., Metal, silver

Diameter	8.2 cm
Height	18 cm

- Coffee pad storage made easy: the handy storage tin is suitable for all coffee pad sizes, e.g. Senseo, Tassimo, Jacobs, etc.
  - Well stored: inside the box, the coffee pads are protected from light so they keep their aroma for longer. The ideal container with keep-fresh effect
  - Pad tin with lots of space, able to accommodate up to 20 tea or coffee pads - or space for around 300 g of coffee beans or around 340 g of ground coffee and espresso powder
  - Versatile box: of course, the storage tin is not just for tea and coffee pads: it's important to store nuts, Gummibears, sweets, biscuits, cocoa powder, pasta, rice and so on properly too
  - Timeless design: the simple coffee pad tin in elegant silver suits all coffee preferences and every style of home - and cuts a fine figure next to all pad machines
  - Long-lasting and plastic-free: the material gives the round pad tin an elegant stainless steel feel and is of course food-safe and taste-neutral - for unadulterated full-bodied coffee enjoyment
  - Beautiful storage tin for the kitchen:
- simply transfer coffee pads from the packaging into the pad box - for a tidy living ambience

Coffee/Tea Container

COFFEE/TEA CAN

## Coffee Tin for 1.3 kg Beans or 1.5 kg Powder, Airtight, Aroma-tight, black

Height	24.5 cm
Width	15 cm

- Large coffee tin with plenty of space: the storage tin holds 1300 g of whole beans or 1500 g of coffee powder - simply fill up with entire 1 kg packs before the coffee runs out
- Aroma tin for coffee: the air-tight aroma closure with sealing ring keeps moisture out and preserves the fine nuances of flavour for a long time - aroma-safe for ground coffee, roasted coffee beans or even loose tea
- Versatile box: of course, not only coffee beans fit into the storage box - it's also important to store cocoa, biscuits, pasta, rice, muesli, sugar, flour, nuts, coffee pods, capsules and so on correctly
- Insight without opening: the anti-static viewing window of the coffee aroma tin provides the perfect view of the contents - so you can see immediately if and when you need to replenish your favourite roast
- High-quality and durable carbon steel: the material gives the round metal storage tin an elegant stainless steel feel and is of course food-safe and odourless - for unadulterated full-bodied coffee enjoyment
- Robust surface: the large coffee tin

in black matt has a scratch-resistant anti-fingerprint coating - so no fingerprints mar the beautiful kitchen tin either

- Timeless design: the coffee tin with viewing window suits all coffee preferences and every style of living - and cuts a fine figure next to all coffee machines, from the French press to filter machines and fully automatic coffee makers

Permanent Filter

## Permanent Filter for Coffee Makers, Coffee Filter Replacement for Size 4, b

Suitable for	Coffee Machines
Set Contents in Pieces	1

- Use coffee machines with permanent filters in an environmentally friendly way: the permanent coffee filter is the ideal replacement for disposable paper filter bags - creating less waste quickly
- Universal coffee filter: fits in standard filter coffee machines from the usual manufacturers as well as hand filters, coffee filter attachments etc. made of plastic, stainless steel, ceramic or porcelain, provided they are larger than the permanent filter
- Reusable replacement for coffee filter size 4 (1x4): up to 4 x 200 ml cups of coffee or 6 x 125 ml cups with one surge infusion, or 8-12 cups with two surge infusions
- Simple and safe: simply insert the wedge-shaped permanent filter like a paper filter and use it indefinitely - for your favourite coffee enjoyment without annoying folds or coffee grounds in the cup
- 120 mesh: extra-fine filter mesh made of stainless steel - tasteless, food-safe and fine-pored for the finest coffee aroma
- Long-lasting and sturdy: the reusable coffee filter can be easily emptied, washed out and reused as many times as you wish
- Easy to look after, hygienic and dishwasher-safe: of the permanent coffee filter can be quickly washed by hand or in the dishwasher
- Straightforward thanks to the handle: the practical handle makes it easy to remove the permanent filter from the coffee maker and attachment
- Cheaper alternative: permanent coffee filters are cheaper compared to disposable filter bags for coffee makers, coffee attachments, etc.

## Reusable Pads, Set of 2 for Senseo and Similar Models, Reusable Pad Filter, blk

Suitable for	Phillips Senseo
Set Contents in Pieces	2

- Make using a coffee maker with pads eco-friendly: the self-fill coffee pads are the ideal replacement for disposable pads, creating less waste in an instant
- Versatile: long-term pads for the Philips Senseo and all similar appliances from common coffee machine manufacturers
- Simple and safe: 3 holders make the reusable coffee pads easy to open and close, ensuring maximum enjoyment without messy coffee grounds
- Brew your favourite powder with a coffee filter in the pad machine: you decide what you put in the coffee pads, whether it be regular, stomach-friendly or decaffeinated, strong or not so strong
- Perfect coffee crema: refillable coffee pads with an extra-fine filter mesh - food-safe and fine-pored for the finest coffee aroma
- Easy to look after, hygienic and dishwasher-safe: the universal coffee pads can be quickly washed by hand or in the dishwasher
- Long-lasting: the reusable coffee pads can be easily emptied, washed out and reused as many times as you wish
- Space-saving design: reusable pads and coffee powder are significantly more economical and take up less space than conventional disposable coffee pads, and there's a lot less packaging waste too
- Handy set of 2: prepare the next cup while the first serving is still brewing, or use it as a coffee and tea pad
- Cheaper than disposable: reusable pad filters for Senseo and similar machines are cheaper compared to disposable coffee pads, so you save money

Tampfer Kit

COFFEE PREPARATION

**Tamping Set, 51 mm Tamper, Stainless Steel, with Tamper Mat, Non-slip, black**

Suitable for	Espresso
--------------	----------

- Must-have sieve tamper: the balanced contact pressure with the tamper improves the water flow through the entire powder - so all the aromas unfold
- Flat base: flat pressure surface of the hand tamper ensures correct distribution and precise pressure on the espresso powder in the sieve, resulting in perfect espresso- Durable and rust-proof: the base of the espresso tamper with a 51 mm diameter is made of high-quality 304 stainless steel - food-safe, rust and plastic-free- Sits beautifully in the hand: ergonomic tamper handle with easy-care, oxidised aluminium alloy- Solid weight: at 340 g, the stainless steel tamper enables comfortable handling- Easy to clean: the base can be removed from the tamper handle and facilitates thorough hygienic cleaning. The stainless steel part of the coffee tamper is dishwasher safe- With tamper mat: the silicone tamper tray creates a firm place for the sieve stamp - ideal when hobby or professional baristas need to be quick- Special surface: nubs in the tamper holder for optimal ventilation of the coffee stamp - easy drying on the mat- Non-slip and 2-in-1: tamping

mat as storage surface for the tamper and filter support when pressing coffee - tamping without sliding around- The tamper mat protects the espresso stamp as well as the worktop, kitchen counter etc. from damage- The stainless steel barista tamper with black handle is a visual highlight next to your filter machine

COFFEE PREPARATION

Box

## Knock Container, Knock Box for Quiet Knocking, Non-slip, black

Diameter	11 cm
----------	-------

- Quickly clean without scraping: knock out the filter head with a few knocks on the knock box - no coffee brew gets stuck- Low-noise: dampening silicone coating on the knock bar of the stainless steel knock box - even with vigorous knocking- Non-slip thanks to 5 mm foam padding: clever anti-slip coating on the underside of the knock box for filters - no sliding around and the work surface is protected- Plenty of space: up to 13 coffee pucks fit into the knock container- Compact: the flexibly positionable knock box also fits into small kitchens and corners - much more practical than knock drawers or other grounds containers- Splash guard: the raised rear wall on the barista knock container prevents coffee grounds from splashing out of the knock tray- Use the leftovers: the collected coffee grounds in the knock container are suitable as a plant fertiliser, skin exfoliator or as a home remedy against odours, for example- Easy to clean: the coffee grounds container as well as the filter are emptied and cleaned in no time - no tight corners, no mould- Can be dismantled: for easy, thorough cleaning, the crossbar

can be removed from the knock box and rubber cover- Robust: the knock box is made of 304 stainless steel for a long service life, even with intensive use- Timeless design: the coffee knock container in elegant black matches any style of home - and simply looks good next to your filter machine

# Coffee/Tea Preparation

MILK PREPARATION

Milk Jug

**Stainless Steel Barista Milk Jug, Milk Froth Jug, 350ml, matt black**

Capacity	350 ml
Height	9 cm
Width	7.5 cm

- Milk measuring cup with 350 ml and practical scale: inside indication of filling level - precise measuring for just the right amount of milk foam without overflowing- Millilitre scale: 100 ml, 150 ml, 200 ml, 250 ml, 300 ml, 350 ml- Ounce scale: 4 oz, 6 oz, 8 oz, 10 oz, 12 oz- The finest latte art: the pouring spout on the milk jug enables precise pouring without dripping - with a little practice, impressive motifs can be created on cappuccinos and similar drinks.
- Easy to use thanks to the handle: the milk jug handle has a high-quality finish and its shape helps you to find exactly the right pouring angle for artistic milk foam patterns- Perfect height: the frothing jug fits perfectly under the milk frother of coffee machines from all manufacturers, e.g. fully automatic machines and espresso machines- More than trendy design: the black milk frother jug looks good and is suitable for any type of milk, whether cow or plant milk, from soy to almond to oat
- Multi-functional thanks to the measurement display in the stainless

steel jug, e.g. for cooking, baking or mixing cocktails, also as a cream pourer, for serving dressings, tea, juice, smoothies or milkshakes- Robust and durable: the barista milk jug made of high-quality 304 stainless steel is of course food-safe and plastic-free- Easy-care, rust-free and simple and hygienic to clean: the milk frothing jug can be easily washed by hand and is even dishwasher safe

Milk Frother

**Electric Milk Frother, Hand Rod Battery-operated, small, black**

Operating Mode	Electrical
Height	3.7 cm
Length	20.5 cm
Width	2.5 cm

- Froth milk with absolute ease: the Quirl is a special spiral with a diameter of around 2.3 cm and creates the ideal vortex for creating foam crowns with a perfect consistency
- Extra-powerful motor: 14,000 revolutions per minute (rpm) guarantee a creamy milk foam finish
- No more cable spaghetti: the cordless milk frother with batteries is always ready for use, with no need for any mains power or crowded plug sockets
- The compact milk frother takes up barely any space in the kitchen, making it the ideal add-on for pod, pad and espresso machines, filter coffee makers and automatic coffee machines without integrated milk frother
- Create milk foam while out and about, whether you're camping or on a mini-break: the compact rod milk frother ensures the ultimate enjoyment of milky coffees wherever you are
- Fits well in the hand: the milk frother impresses with its soft-touch, easy-grip surface and trendy design in discreet black and silver
- A joy to use: manual slider (On/Off) for

easy handling - no need to keep any buttons pressed

- Multi-functional frother for milk and more: makes simply great milk foam as well as milkshakes, cream-based and other cocktails, salad dressings and sauces and can even whisk eggs perfectly
- The foam attachment made from high-quality 304 stainless steel is of course food-safe and easy to clean and keep hygienic

4

## Household Filter

**Protective Inlay for Air Fryers, Non-Slip Mats, Can be Cut to Size**

Usage	Deep-Fat Fryer
-------	----------------

- The protective inlays keep the air fryer clean
- The un-perforated inlay is placed in the lower / outer basket and protects against any leaking liquids
- The perforated inlay is placed on the inner basket / on the plate and prevents the grilled food from getting stuck on the grille
- Steam-permeable material for free air circulation within the air fryer
- Heat-resistant to 260°C
- Can be cut to the desired size - suitable for all commercially available air fryers
- Side tabs for conveniently removing the inlays after use
- Easy to clean: dishwasher-safe
- The filters can be reused, and if used correctly up to 100 times

00111419		
12	HB	

## Mat

**Silicon Baking Mat, Square, 40 x 30 cm, red-brown**

Shade of colour	Brown, Red
-----------------	------------

Material	Silicone
----------	----------

- Silicon has natural non-stick properties so that less flour is needed for dusting and dough is released more easily
- Ideal for decorating cakes and tarts, makes working with icing and marzipan easier
- Thanks to silicon sides, the mat remains in the same position when kneading / rolling out dough, for example
- Can be cut to size as an inlay for spring moulds
- Also suitable for refrigerators and freezers, e.g. for storing a roulade in the refrigerator
- Simply roll up the baking mat for space-saving storage
- Easy clean under running water or in the dishwasher

40 cm	00111470	
12	BA	

**Oven Protector Foil, Reusable, Teflon® Non-Stick Coating, 35 x 43 cm**

Shade of colour	Silver
-----------------	--------

Material	Glass Fiber (Teflon coating)
----------	------------------------------

- Can be trimmed to size, therefore suitable for every oven and microwave
- Heat-resistant to 260°C
- Easy to clean with soapy water thanks to Teflon® non-stick coating
- No more tedious and time-consuming cleaning of the oven floor

35 cm	00111480	
24		

**Reusable Baking Foil, Can Be Trimmed to Size, Teflon Coating, 40 x 33 cm**

Shade of colour	Black
-----------------	-------

Material	Glass Fiber (Teflon coating), Plastic
----------	---------------------------------------

- Reusable baking foil can be used instead of disposable baking parchment
- Avoids waste and protects the environment Unlike baking parchment, the foil can be reused many times over
- Can be trimmed to size, making it suitable for every type and size of oven and baking sheet
- High-quality Teflon coating: no burning, no greasing required
- Can also be used in the microwave
- For electric and gas ovens
- Easy to clean in warm soapy water
- Heat-resistant up to 260°

BAKING

## Shaker

**Cocktail Shaker, made of glass, 400 ml**

Material	Glass, Stainless Steel
Width x Height	8.2 x 15.5 cm

- Set consisting of a drinking glass, a stainless steel attachment with an integrated sieve and a locking cap
- The locking cap measures 4 cl, therefore ideal for accurately measuring the individual ingredients
- Silicone ring for optimal leakage protection
- Selected receipts of various cocktails printed on the drinking glass
- A scale on the glass makes preparing drinks easy
- No need to fill the mixed drink into another container; the shaker can also be used as a stylish cocktail glass

Transparent	00111550
6 SC	

## Ice Cube Tray

**Ice Cube Mould with Cover, For 36 Ice Cubes, Set of 2**

- For ice-cold drinks: ice cube box for freezing and creating 36 ice cubes
- Also suitable for freezing sauces, pesto or baby porridge: simply take out each portion from the cube compartments
- No leakage of the contents on uneven surfaces and hygienic freezing thanks to firmly sealable cover
- Dishwasher-safe, freezer-safe
- Temperature resistance: -18° to +100°C
